Filed: 7/31/01

Title: Distributed Generation Drivetrain (DGD) |

Controller For Application To Wind Turbine |

And Ocean Current Turbine Generators

**AMENDMENT**

Commissioner of Patents & Trademarks

Washington, DC 20231

Sir:

This amendment is in response to the Office Action mailed 10/4/02.  
Please amend the application as follows:

**In the abstract:**

Please replace the abstract with the new abstract attached hereto.

**In the specification:**

Please replace the paragraph beginning at page 3, line 18, with the following rewritten paragraph:

**FIGURE 2** shows a schematic view of the induction generator of the present invention in parallel configuration;

Please replace the paragraph beginning at page 9, line 13, with the following rewritten paragraph:

Another important facet of the torque regulation capabilities of the SCR-T controller is its ability to increase/decrease slip by reducing torque, in response to variations in the prime mover input torque. This capability is especially
